[User](#) likes about ?????????? Indy:

Small business in a small town with a big taste! Enjoy this store of local foods, very similar to spring rolls and combine with noodles. If you have the opportunity to visit the city, this restaurant is a must! The price is very cheap with a large part. You can park your car from the store. [read more](#). What [User](#) doesn't like about ?????????? Indy:

A rather average restaurant quite a bit more style over substance. They serve Kao Pun , a unique local food of Uttaradit province, practically a variety of elaborated noodles and vegetable/egg wraps served with the traditional noodle soups: pork, beef or fish balls. The service is a bit lacking and certain notice might make ones feel unwelcome. [read more](#). Various *fine seafood dishes* are provided by the ?????????? Indy from Uttaradit.
