Literally the best ramen my whole japan trip. Went twice while I was here and both ramens were fantastic in their own way. The vegan fried chicken and gyoza were very enjoyable too. Went with my omni friends and they loved their meals. Service was warm and friendly. The waiter also gave us a map for vegan food around Tokyo. I can't recommend this place enough!! [read more](#). What [harrisonfm](#) doesn't like about Yakuzenshokudo Chabuzen:

It was a little weird seeing the back pages of the menu dedicated to antivaccine propaganda but there it is. Additionally, I thought the seating was uncomfortable and have never before had vegan ramen without any veggies. I'd say skip but this is the only vegan ramen in the area, so maybe take your noodles with a side of crazy. Updated from previous review on 2023-12-06 [read more](#). The comprehensive range of *coffee and tea specialties* makes a visit to Yakuzenshokudo Chabuzen even more worthwhile, on the daily specials there are also a lot of Asian menus. No Korean feast is complete without traditional Korean menus like Kimchi, Bap and Jjigae, which are served on the menu card and the tables of the customers, Furthermore, the guests love the successful combination of different dishes with new and partially experimental ingredients - a good example of successful **Asian Fusion**.
